

Connection Centre 3200

Field of application

The SYR Connection Centre 3200 is a connecting module used for filling the heating installation with soft and demineralized water and with water

for pH-stabilization. Relevant for the method is the refillable water softener or demineralization cartridge.

Design

The cartridges are refillable and available for 2,5, 4, 7, 14 and 30 Litres. The Connection Centre is equipped with an outlet ball valve, integrated blending valve which can be changed from water softening

to demineralization, digital capacity-control with integrated conductivity measurement and remaining capacity display and a wall bracket.

3200 Connection Centre

Materials

Body, internal parts and isolating valve are made of high-quality, low-lead brass alloy or stainless steel. Seals are made of elastomeric synthetic ma-

terial (hot-water and ageing-resistant). The springs are made of corrosion-resistant spring steel wire.

Installation

Install the Connection Centre before the heating installation. Do not install the device in rooms liable to humidity or frost. Fit the center to the wall bracket. Mount the cartridges from below to the Connection Centre. The 14 litre-cartridges contain

a pedestal (included in delivery). According to DIN 1717 and DIN 1988, part 100, a BA backflow preventer (e.g. FüllCombi BA 6628) must be installed before the connection center.

Before installation, the pipeline must be flushed thoroughly. Install the Connection Centre hori-

zontally in the pipe under consideration of the direction of flow and without applying stresses.

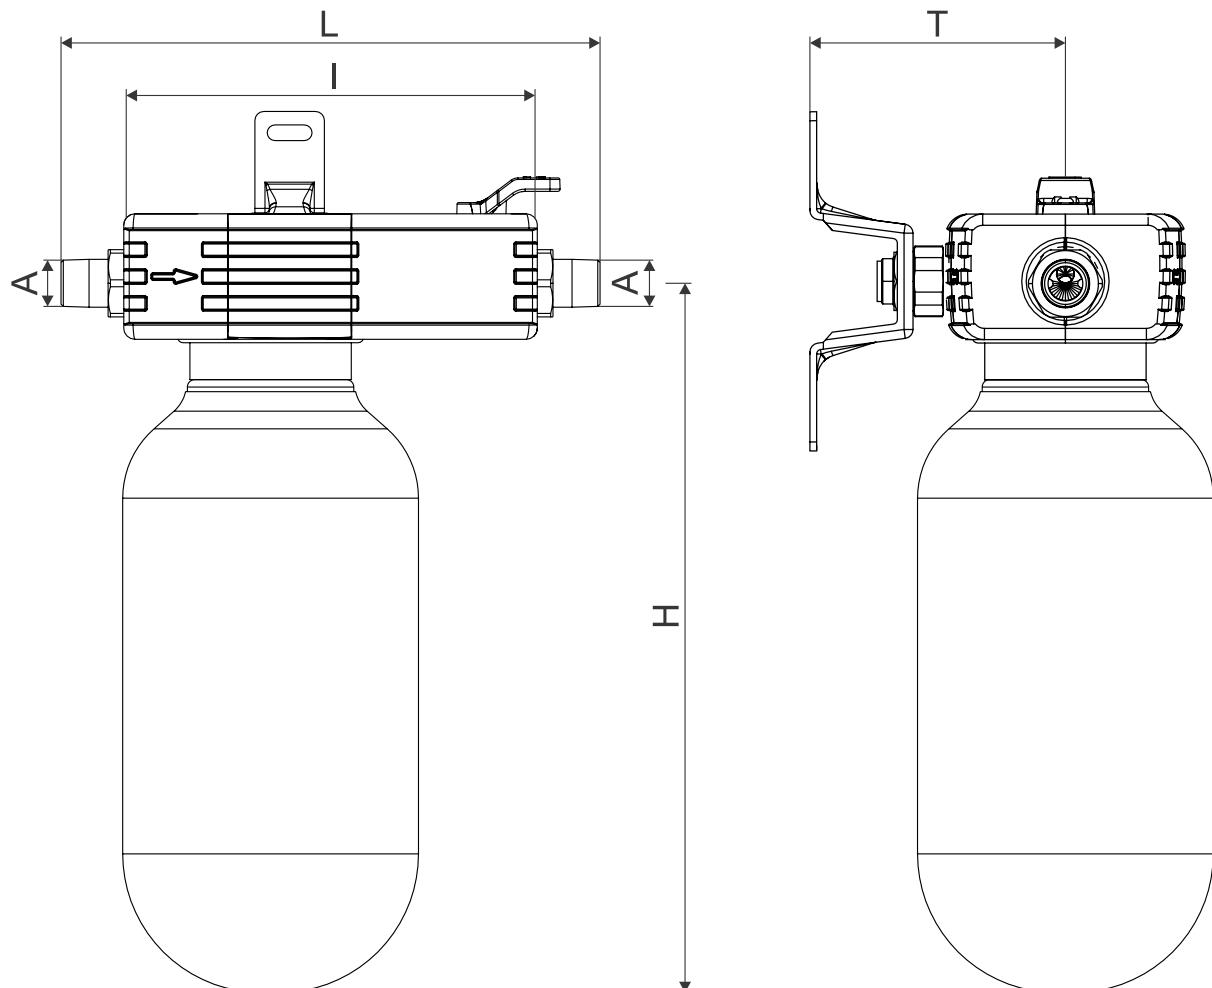

Technical data

Operating pressure:	max. 6 bar
Operating temperature:	max. 30 °C
Mounting position:	main axis horizontal
Medium:	potable water
Flow rate capacity:	0,5 m ³ /h
Serial number:	3200.15.026

Maintenance

The Connection Centre automatically reports an exhausted cartridge. Just refill the cartridge with

the refill resin. Pay attention to order the appropriate resin and size of the cartridge.

Nominal size	DN 15
Dimensions	A R $\frac{3}{4}$ "
	L (mm) 240,5
	I (mm) 184,5
	H (mm) 284 (2,5 Litres), 375 (4 Litres), 574 (7 Litres), 984 (14 Litres), 923 (30 Litres)
	T (mm) 90 - 105
